SAYINGS & QUOTES

Education is not
preparation for life;
education is life itself.

John Dewey

He who knows himself knows his Lord: **من عرف نفسه فقد عرف ربه**

“Knowledge should mean a full grasp of knowledge:
Knowledge means to know yourself, heart and soul.
If you have failed to understand yourself,
Then all of your reading has missed its call.”

— Yunus Emre

وَفَوْقَ كُلِّ ذِي عِلْمٍ عَلِيمٌ

We raise the degrees of whom
We will, and above every one possessed
of knowledge is the All-Knowing One.

Education
against
Ignorance

YOUR

IGNORANCE

IS THEIR

POWER.

Peace we want because there
is another war to fight against
poverty, disease and ignorance.

Indira Gandhi

quandary

Activist: Martin Luther King Jr.

Conclusion

Overcoming civilized people is by persuasion, not by compulsion like savages who do not understand words (Religious Scholar: Nursi).

We're all ignorant in life—but that's ok because our ignorance can be mended. Willful ignorance and inaction to address it however, is inexcusable.

Conclusion

Several key principles for quality education

In the era of technology

1. Equitable Access
2. Effective Use of Technology: 3. Teacher Training
4. Ethical AI
5. Collaboration

Remember, quality education combines technology with human-centered approaches for optimal learning outcomes.

The consequences of ignorance

- **Thinking You're Better Than You Are:**

This can lead to making big promises or commitments we can't actually keep.

- **Missing Out on Talent Around You:**

Ignoring competence in others can lead to bad decisions, like hiring the wrong person for a job.

- **Not Knowing What You Don't Know:**

This lack of awareness can lead to disasters, like crashing that car.

- **Real-Life Consequences:**

Ignorance has real-world effects: lost jobs, failed businesses, and personal struggles.

Remember: learning is power! Knowing more helps us make better choices. Ignorance? Well, that's like stumbling in the dark.
