# Access Reports

- **Reports** offer a way to view, format, and summarize the information in your Microsoft Access database.
- **Reports** can group information, perform additional calculations, and generate nicely-formatted printed copies.

Department Report	
deptName	Cybersecurity
deptCode	CBS03
office	CBS210
budget	\$7,000
deptName	IT
deptCode	IT01
office	IT210
budget	\$5,000
deptName	Medical Analysis
deptCode	MA09
office	MA80
budget	\$3,000

Wednesday, October 29, 2025 Page 1 of 1

# Report Wizard

- The **Report Wizard** is a feature in Access that guides you through a series of questions and then generates a report based on your answers.

# Tables

**Department**

Field Name	Data Type
deptName	Short Text
deptCode	Short Text
office	Short Text
budget	Currency

**Student**

Field Name	Data Type
ID	AutoNumber
First Name	Short Text
Last Name	Short Text
Date of Birth	Date/Time
Gender	Short Text
Major	Short Text
Picture	Attachment

5

## Relationships Between Tables

6

# Report Properties

- **Report properties** in Microsoft Access are settings that control the appearance, behavior, and data source of a report and its components

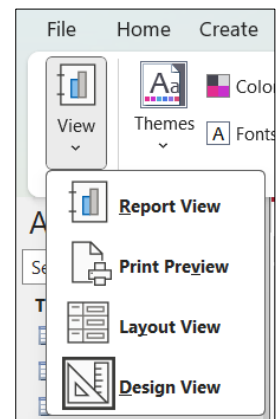

The screenshot shows the 'Property Sheet' window for a 'Report' selection type. It features a 'Report' dropdown menu and several tabs: 'Format', 'Data', 'Event', 'Other', and 'All'. The 'Format' tab is active, displaying a table of properties and their values.

Property	Value
Record Source	Student
Caption	Student Report
Pop Up	No
Modal	No
Default View	Report View
Allow Report View	Yes
Allow Layout View	Yes
Picture Type	Embedded
Picture	(none)

7

# Report Views

- Microsoft Access reports have four main views:
  - **Report View** → for onscreen viewing of the report, but not for printing.
  - **Print Preview** → showing how the report would appear when printed
  - **Layout View** → formatted report with the ability to adjust the width, height, and position of the data fields.
  - **Design View** → for making structural changes without seeing the data.

8

# Let's Create Reports

- Create a report for each table.
  - **Department** Report
  - **Student** Report

9

## Department Report (without grouping)

Department Report	
deptName	Cybersecurity
deptCode	CBS03
office	CBS210
budget	\$7,000
deptName	IT
deptCode	IT01
office	IT210
budget	\$5,000
deptName	Medical Analysis
deptCode	MA09
office	MA80
budget	\$3,000
