Assignment submission:	17 Feb, 2026	10%
Presentation date:	18 Feb, 2026	10%

## **Turnitin details**

**Class ID:** 51767985

**Enrollment key:** ARW149

# Individual Assignment

## Crafting an Academic Research

- Apply the concepts learned to write up a good-quality academic research paper on a topic of your choice. (You are free to write on any topic)
- Make sure when you write to avoid topics that are not scientific or those that are personal.
- Before you start, do planning so you know what the headings and sub-headings are.
- Follow this general structure and AVOID AI of any kind ( I will know and you will definitely receive ZERO)
- USE Google Scholar to download a few articles about the topic (Using the keywords search). After that, read them and write up based on the information, citation and evidence provided.
- You will present this paper, and I will ask questions about it. So, if you fail to answer these related questions, your assignment mark will be affected.
- APA Citation (REAL AND NOT FAKE)

## **General Formatting:**

**(Place the title in the middle, make it bold and centred)**

**Write your name below with the font size 9 or 8**

### **Abstract (150-200)**

This is a summary of the entire assignment, what you have done. Make sure to avoid the pronouns I, and replace them with the researcher did, analysed, explored, etc.

### **1.1 Introduction**

Here you provide a General to Specific paragraph, explaining and introducing your topic, its importance and the issue that needs to be discussed. Don't write any part of the main discussion here. Here is only an introduction.

### **1.2 Problem Statement**

Discuss the main issue or the reason for writing up this research. There must be an issue that pushed you to write up research on a specific topic. Discuss the importance of this issue and the benefits of solving it.

### **1.3 Methodology**

You need to very briefly discuss the nature of this research. Since your research is qualitative. Make sure to explain shortly about the meaning and why it is applied. Do some research.

## **1.4 Literature Review**

Include a brief literature review, summarizing key findings from primary and secondary sources related to your topic (at least 5 Academic journals or conference papers). Search on Google Scholar and try to write in this part what the main discussion in the previous studies. Make it subheadings if it is necessary.

## **1.5 Finding and Conclusion**

Provide the result of the study and provide your thoughts as a researcher after conducting the study (recommendations). Also, the conclusion is a summary of what this research discussed and the results.

## **1.6 References**

Ensure that all sources you've referenced in your paper are cited using APA style.

## **Formatting Guidelines:**

- Your paper should be approximately 5-6 pages in length, excluding the reference list.
- Use a consistent font (Times New Roman, 12-point) and 1.5-space your paper.

## **Submission Guidelines:**

- Ensure your paper is free of grammatical and typographical errors.
- Avoid Plagiarism / AI = Zero, especially in this course.
- Submit your paper in a Word file format online and a printed version
- Attach to the assignment any supplementary materials or data sets used in your research.
- Don't send via email. You have the Turnitin.
