

Q. Create a webpage for Tishk International University – Web Design Course using HTML and CSS.

Tishk International University - Web Design Course

About the Course

This Web Design course introduces students to HTML and CSS fundamentals.
Students learn how to design and style webpages using colors, boxes, and layouts.

Course Topics

Topics include colors, backgrounds, div elements, borders, margin, and padding.
This section demonstrates opacity and different border styles for each side.

Q. Create a webpage with a styled student table using HTML and CSS, applying selectors, colors, borders, padding, and margin.

Student Grades Table

Name	Course	Grade
Ali	Web Design	A
Sara	Database	B+
Omar	Programming	A+
Lina	Networking	B
